

K-LOVE has been a wonderful inspiration to me. I listen to it every day. It is uplifting and reminds me of God's love for me every minute I'm listening to it. I know that when I have that radio station on, I can be comforted to know that any guest (be it my little cousins or my Grandma) in my car will not be embarrassed or offended because of the wonderful content.

Our local community does not have another Christian radio station that plays the kind of contemporary Christian music that all ages like. Without it our options would be non-existent for that type of music.

We have enough radio stations that swear, gamble, and have offensive music as well as good music on them. I just think that this station has had a wonderful affect on our community and it is great to have the option to listen.
